

Photograph Bokeh

039

You're going to need some really good glass for this challenge - something that opens way up to $f/2.8$ or even $f/1.4$. A great trick if you don't happen to have one of these expensive lenses is placing your subject as far from your background as possible. This is all about balancing your composition with what is in focus and what is

70-200mm | $f/2.8$ | 1/640 seconds | ISO 100
